

HGTV

"Renovating for A Reception"
season 14 | episode 13

Heidi Mendoza of re.dzine put her design skills to the test when she took on remodeling a small Master Bathroom for "House Hunters Renovation."

"When I met Jessica and Adam, I immediately realized how fun this project would be. Both Adam and Jessica liked the sleek and modern look, which is also my signature style. The problem was the actual space, which was very small for a Master Bathroom, and there was really nowhere we could expand, so I had to work with that same space and even footprint to stay on budget and make their wish list to come true all while designing something that would be new and exciting for the HGTV viewers."
